Thanks for your business, we will make you a repeat customer.

Thank you for stopping by and hope you have an enjoyable shopping experience!

★ To Extend Your Laptop's Battery Life

- New batteries are shipped fully discharged, a new battery must be charged for 16 hours, the 16 hour charge initialises the battery, on some occasions the battery indicates a full charge prematurely, please ignore this and start the charging process again, it may take 4-5 full charge/discharge cycles for the battery to reach full capacity. Some Laptop computer batteries will need calibrating, please refer to the original manufacturers instructions New battery pack must be fully charged before use.
- If **laptop battery** will not be in use for a month or longer, it is recommended that it be removed from the device and stored in a cool, dry, clean place.

30-DAY MONEY BACK

3. New battery pack needs to be fully charged and discharged (cycled) a few times before it can condition to full capacity.

4. A charged **laptop battery replacement** will eventually lose its charge if unused. It may therefore be necessary to recharge the battery after a storage period.

5. When charging laptop battery for the first time your computer may indicate that charging is complete after just 10 or 15 minutes. This is a normal phenomenon with rechargeable batteries. Simply remove the battery from the computer and repeat the charging procedure.
